How Do Animals Show Feelings?

In *Velveteen: A New Musical*, we learn about rabbits, including how they communicate their emotions. For example, rabbits thump when they are mad and binky when they are excited.

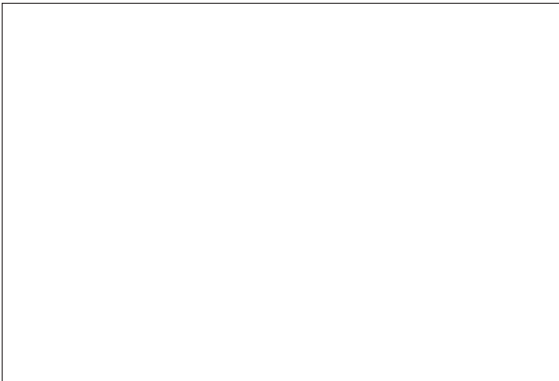

Directions: Draw a picture of a known, everyday animal and write what it does to show emotion. Can you demonstrate the animals' communication like you did in *Velveteen: A New Musical*?

Animal 1: _____

Emotion: _____

What does this animal do to show the emotion?

Animal 2: _____

Emotion: _____

What does this animal do to show the emotion?

Our Toys, Our Friends

In Lulu's room are her toys whom she considers friends. Think about your favorite toys. How have your favorites changed? Why did a certain toy become your favorite? What conversations have you had with your toys/friends? Below, color the pictures of each of Lulu's toys/friends and then draw pictures of your favorite toys.
